

Are You Resilience Ready?

Turn Your Old IT Assets Into Zero-Budget Solutions

THE CFO CHALLENGE

OpEx Cuts: Slashed budgets but you still need ITAM and data center services

CapEx Freeze: Cut hardware purchases but aging infrastructure needs refresh

CHALLENGES

IT leaders everywhere face the same challenge:

CFOs demanding budget cuts while expecting you to maintain operations. At Sprout, we partner with you to solve this by converting your aging equipment disposal value into the resources you actually need, without impacting your budget or compromising performance.

SPROUT'S SOLUTION

Become Resilience Ready by strategically converting your asset disposal value into the resources you actually need:

Service Credits: Fund complete data center operations, relocations, and maintenance with zero OpEx impact on your budget

CapEx Purchasing Credits: Partner with your preferred vendors to buy new equipment through substantial discounts with zero CapEx impact

HOW IT WORKS

1

Sprout assesses your end-of-life equipment value

2

Sprout converts ITAD proceeds into credits

3

Sprout applies credits to services or VAR purchase

4

Your CFO sees cost savings, IT gets funded operations

PROVEN RESULTS - REAL CASE STUDIES

CapEx

Automotive Industry

\$1M+ purchasing power
Generated with zero CapEx impact

OpEx

Global Fintech

\$2M+ value unlocked
\$1M+ OpEx eliminated during cloud migration
